PROFILE

I'm an experienced leader turned front-end web engineer returning to the workforce after pausing my career to stay at home with my family. I'm excited to re-enter the workforce and utilize my organizational, collaboration, and web development skills to help deliver products/features that drive business and consumer value.

Projects

Fit-Connect
https://shrouded-shore-55489.herokuapp.com/
Create a profile to view and create fitness events based on your fitness level and your preferred fitness type so that you can meet up with other like-minded individuals to workout with.
Languages: JavaScript

Shop Your Pantry
https://cfox2019.github.io/shopYourPantry/
Shop Your Pantry allows users to input a list of ingredients they already have in their panty and use those ingredients to generate a list of recipes that incorporate the ingredients. The user can then click on each recipe to find what ingredients are still needed and a YouTube video to go along with the recipe.
Languages: JavaScript, CSS, HTML

Dragonfly Horoscopes
https://dragonfly-horoscopes.herokuapp.com/
Create a profile to view your daily horoscope based on the birthday you enter during signup. You can view on-the-go with your mobile device or on desktop.
